

A trace is not proof of the business effect

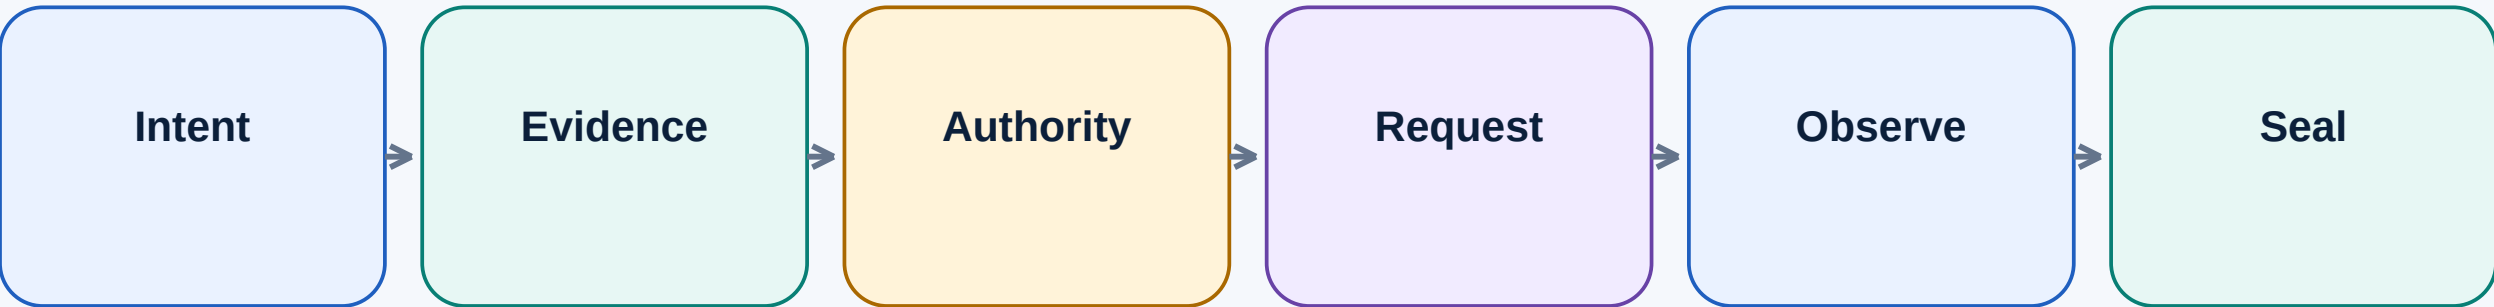

HTTP 200 and a successful span do not establish one authoritative outcome.

THE OPERATING NUMBER

31 min > 15 min

Illustrative p99 ambiguity age versus the operating objective

CONTROL PATH

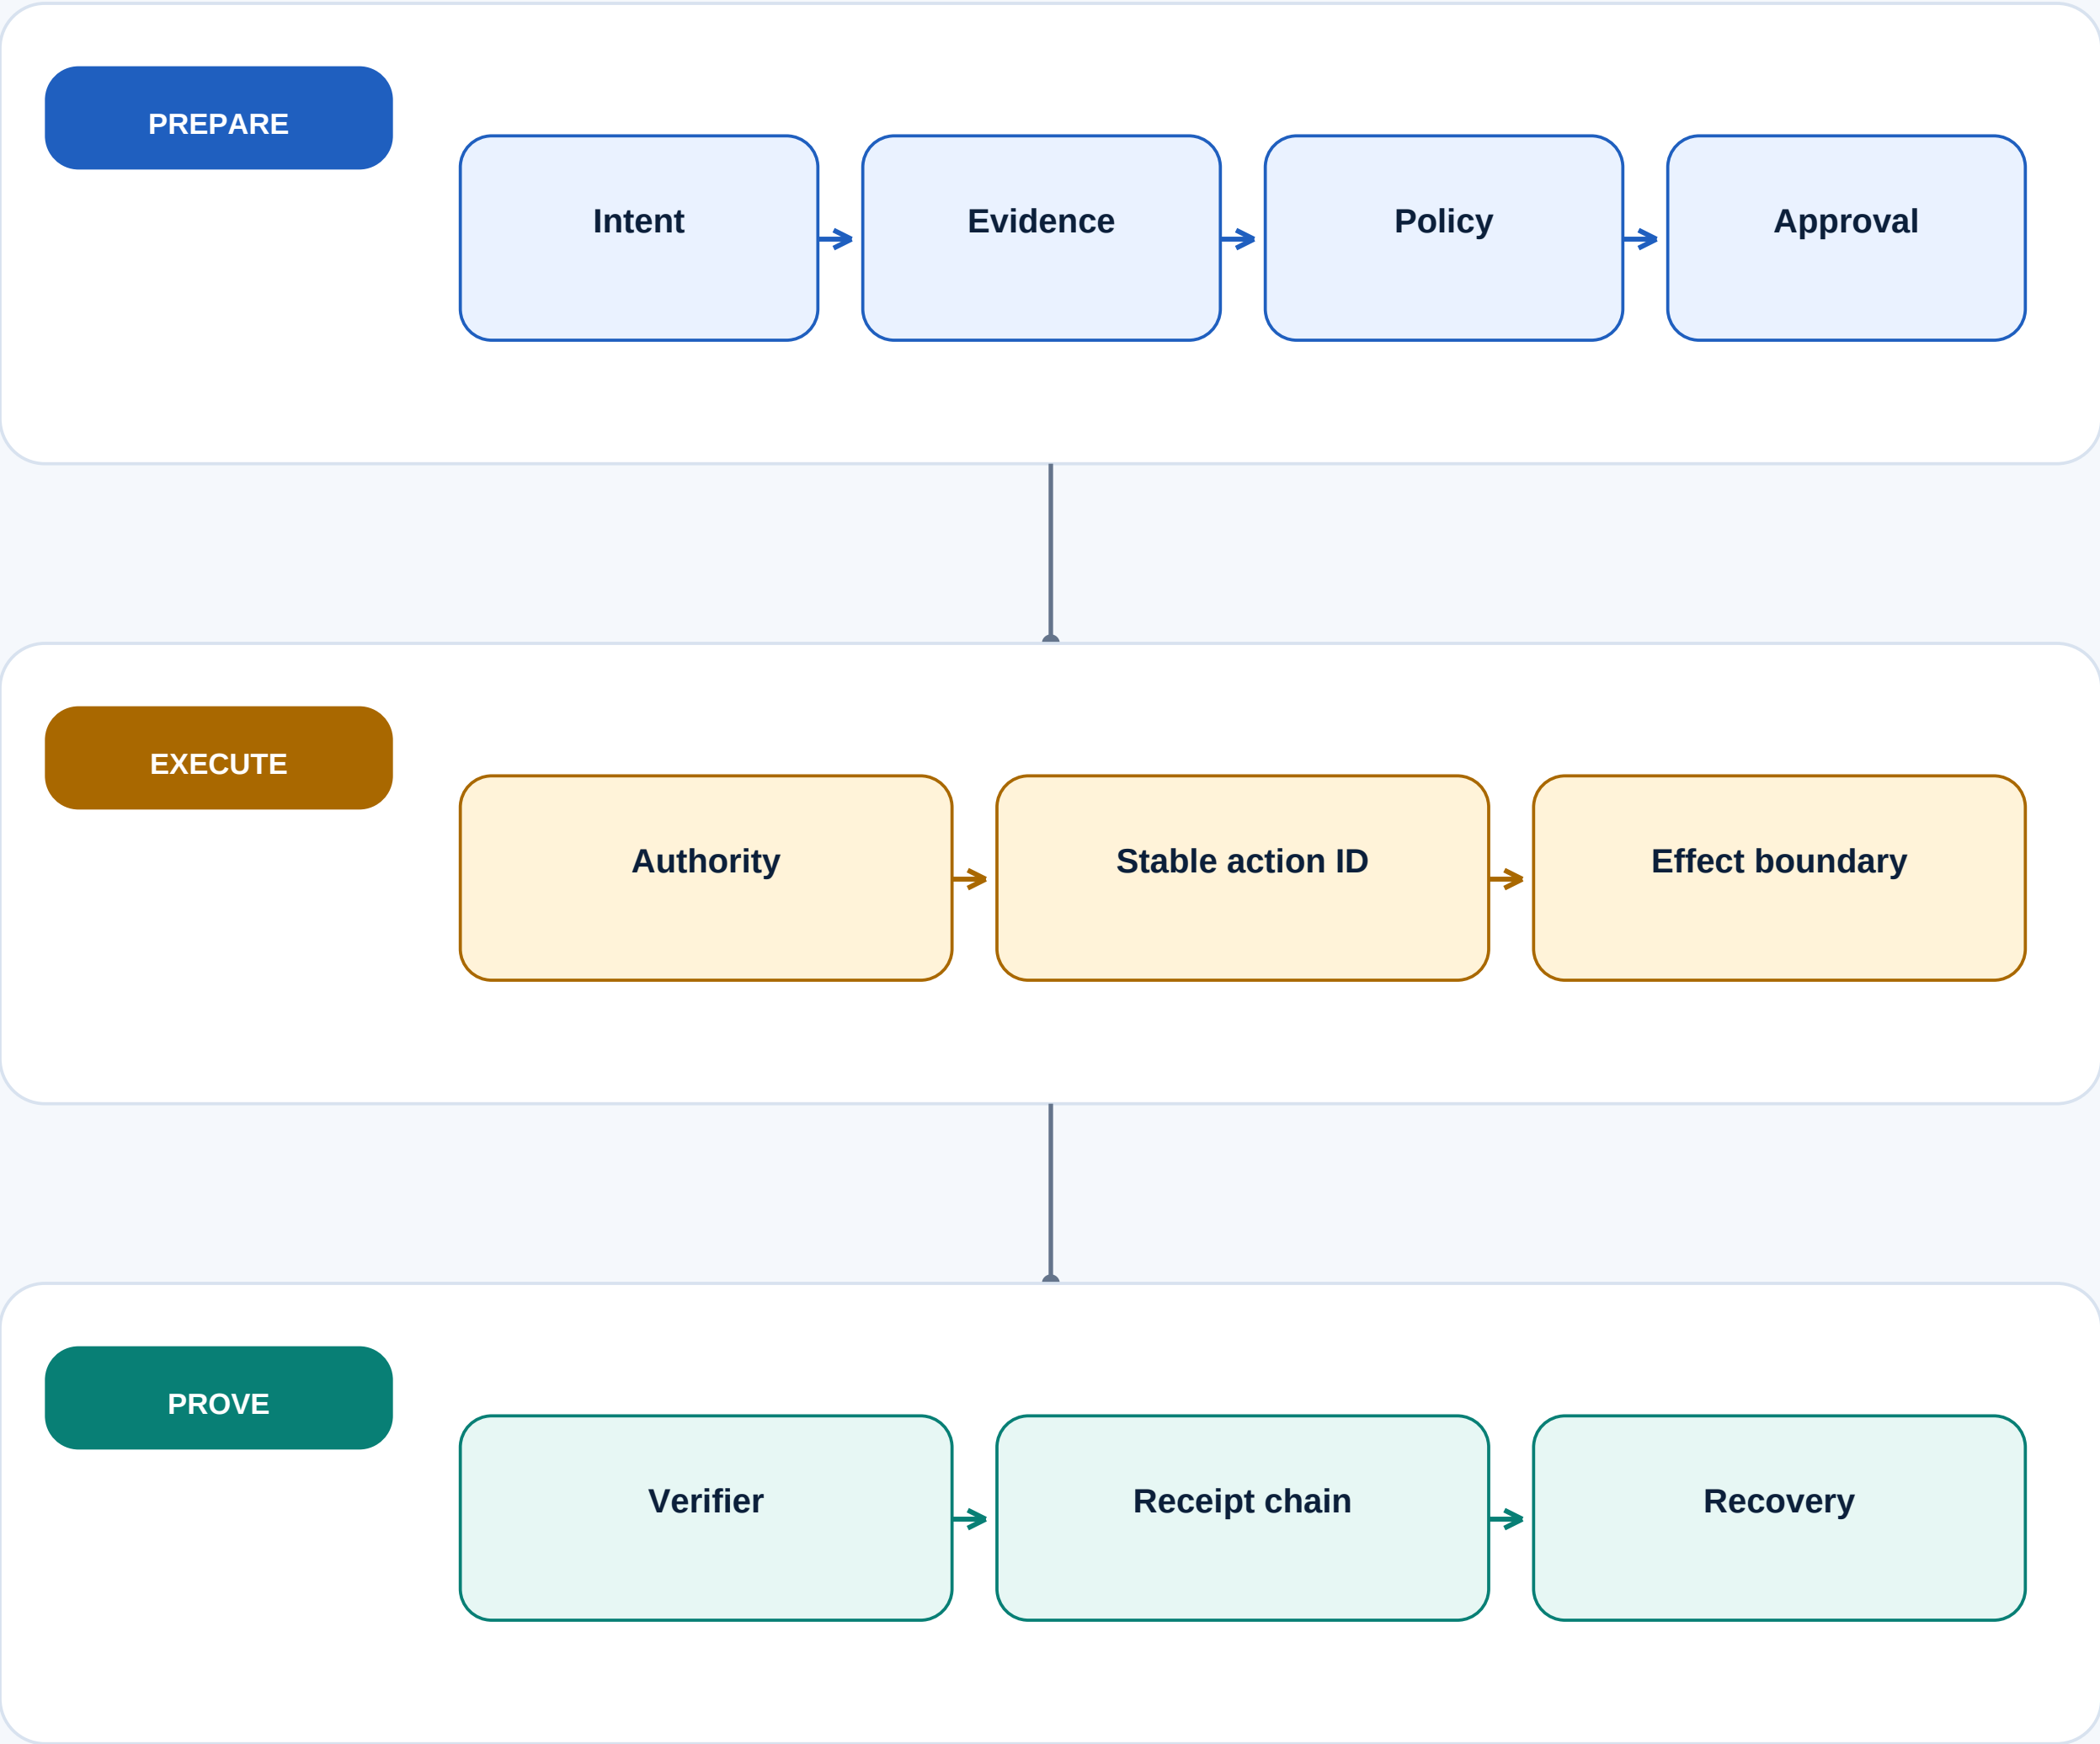

DESIGN PRINCIPLE

Timeout is an ambiguous state, not permission to repeat the side effect.

Action Receipts control architecture

Explicit planes separate decision, authority, execution and proof.

CONTROL CONTRACT

Timeout is an ambiguous state, not permission to repeat the side effect.

Receipt coverage can pass while ambiguity control fails
