

A \$288,000 delta is not tool use

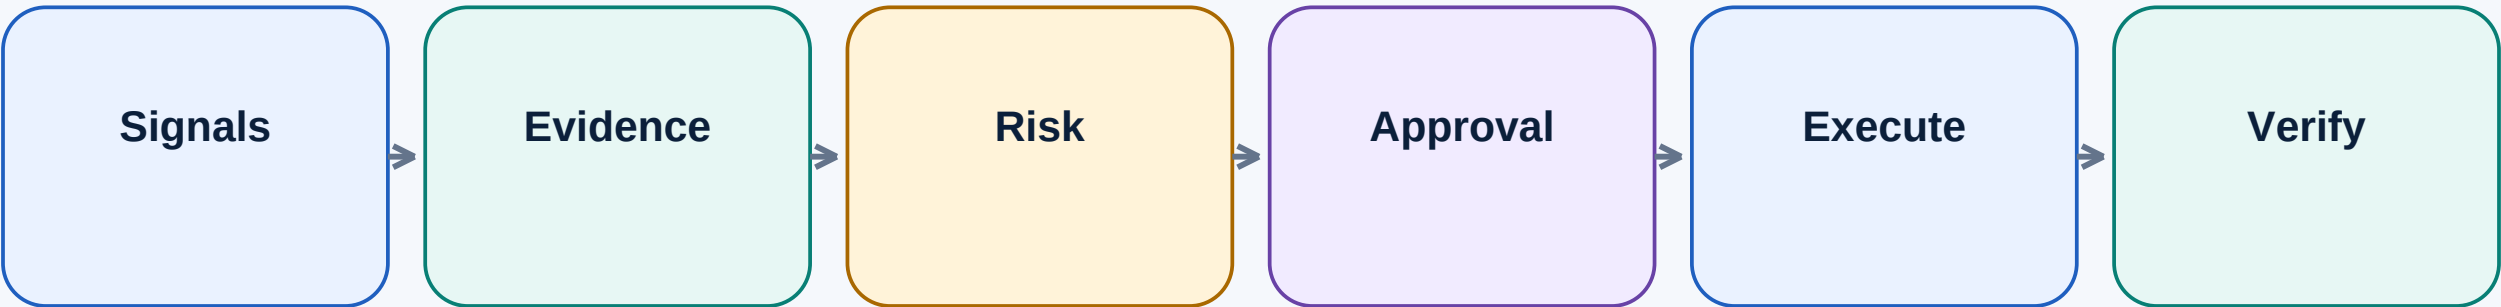

A model recommendation becomes a commercial decision at the effect boundary.

THE OPERATING NUMBER

\$288K in 108 min

Twelve percent of a \$2.4M renewal inside the illustrative response window

CONTROL PATH

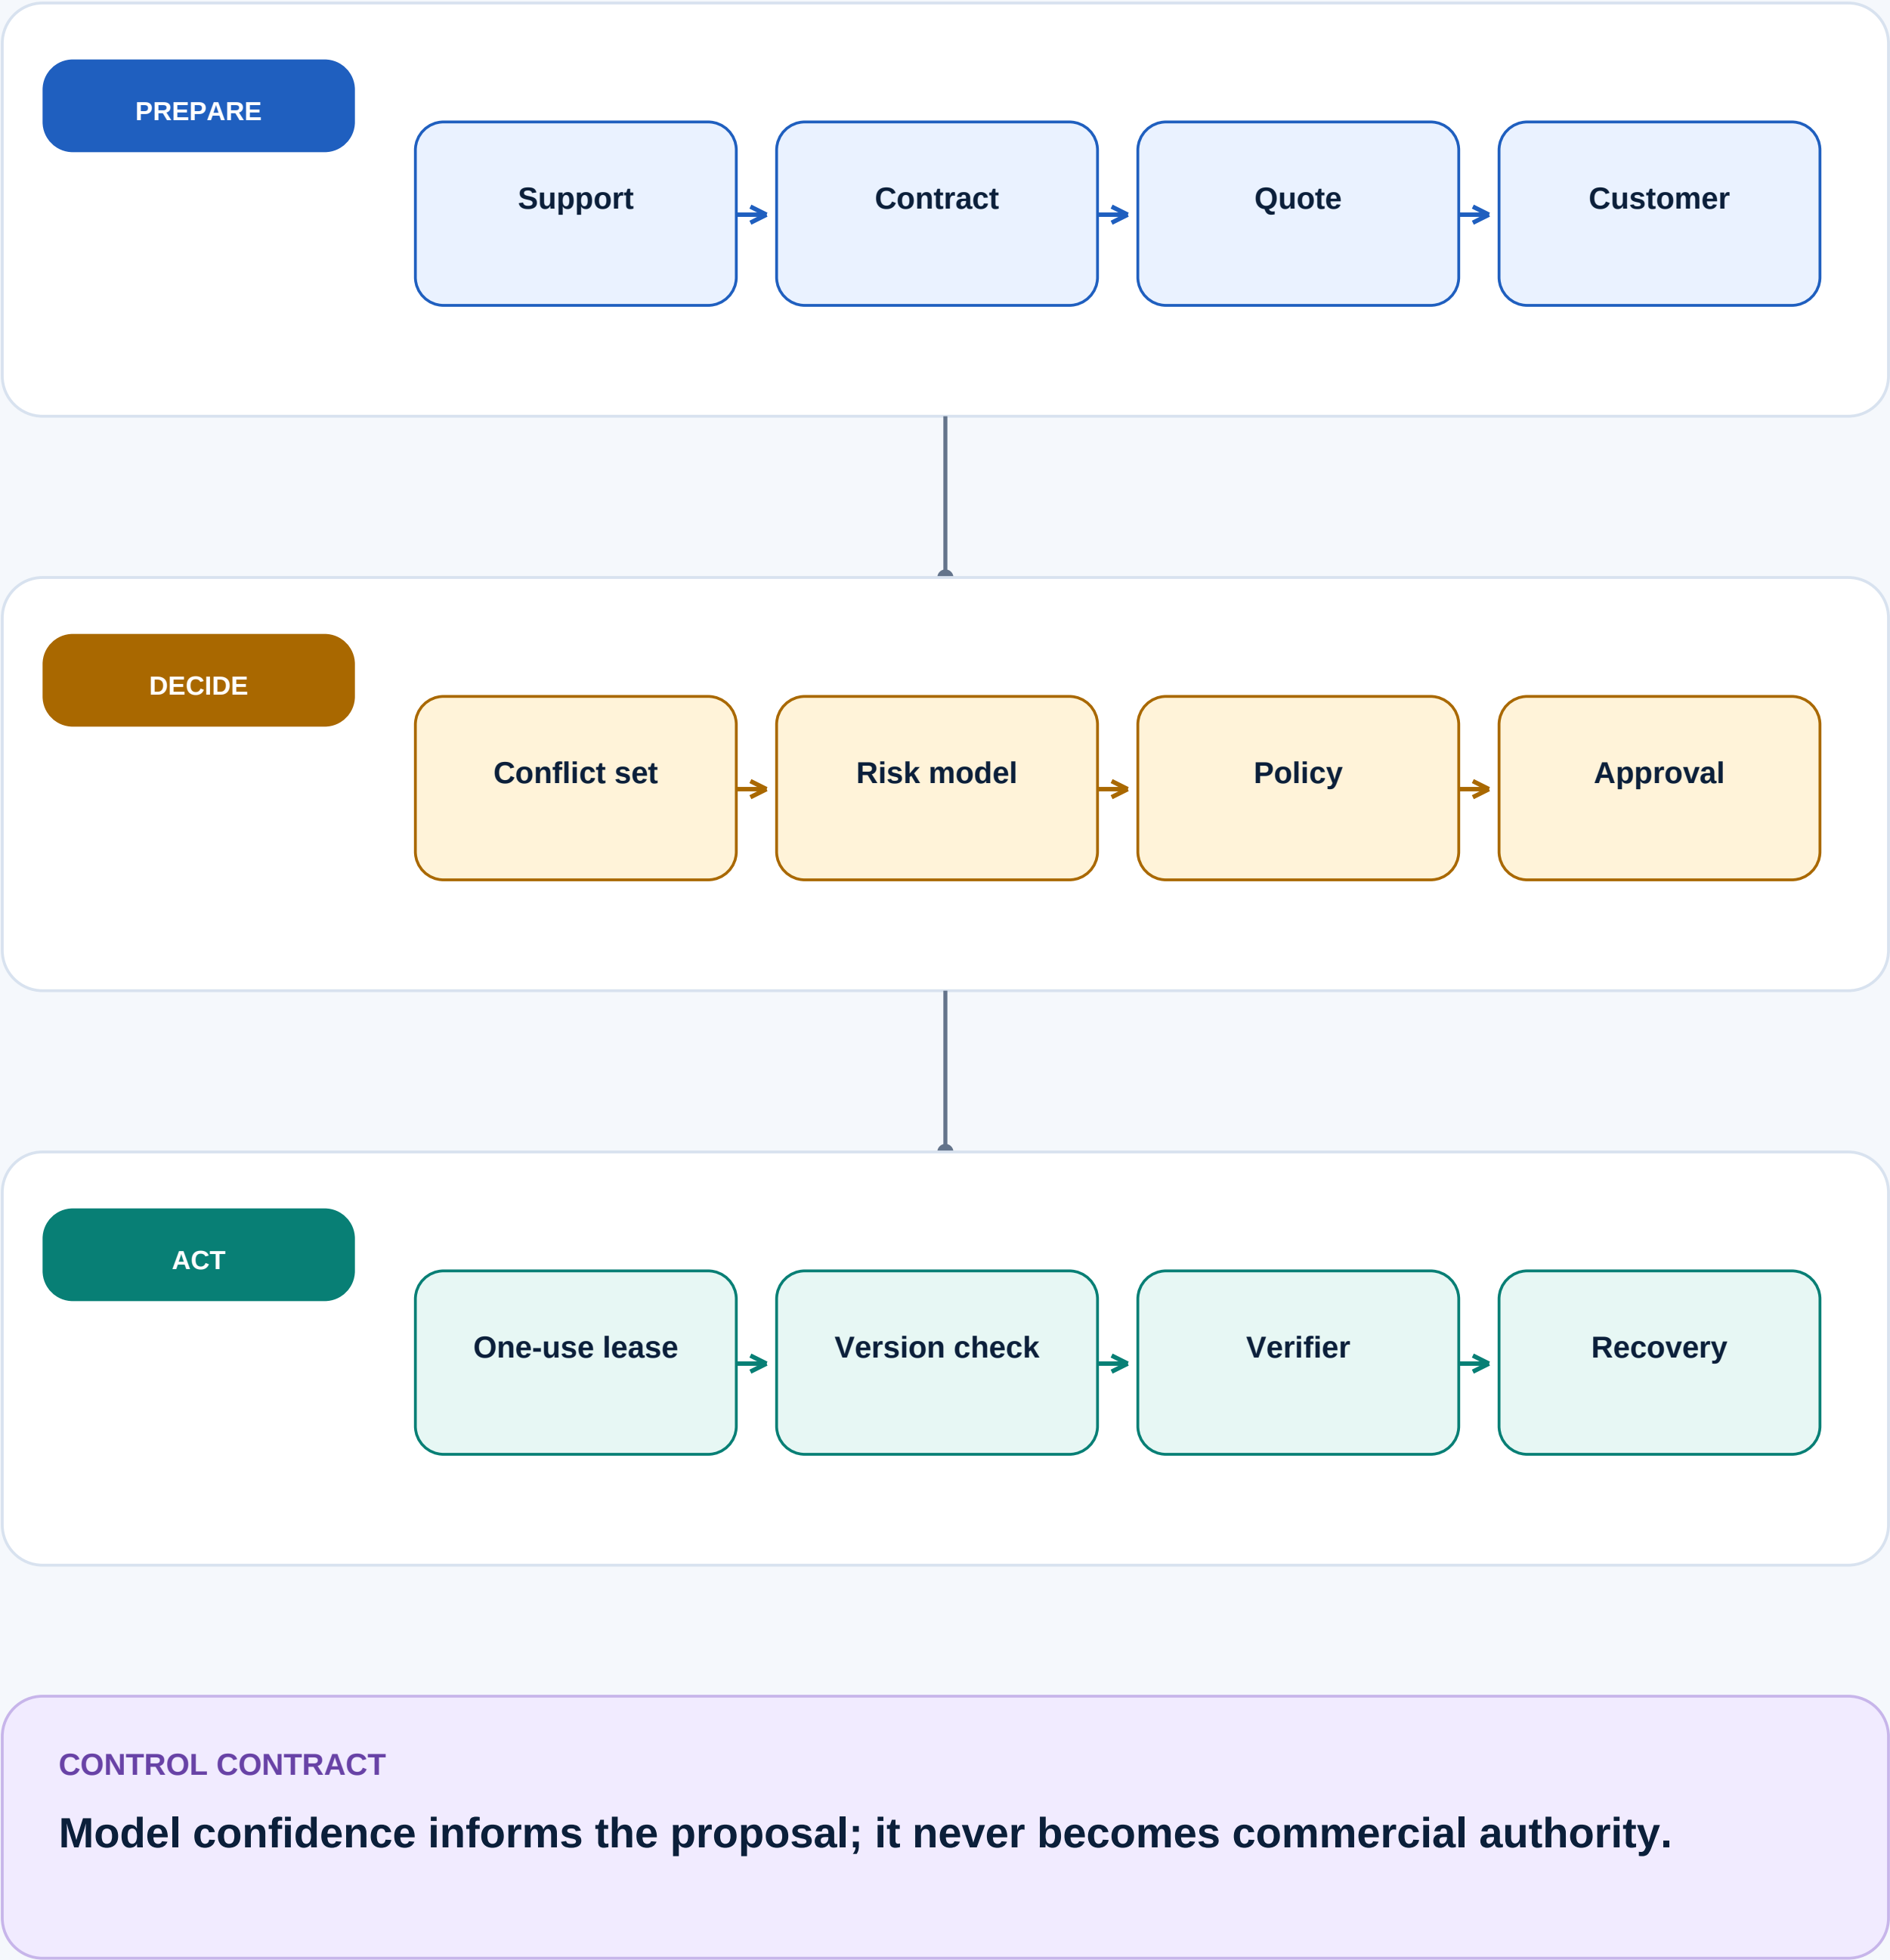

DESIGN PRINCIPLE

Model confidence informs the proposal; it never becomes commercial authority.

Agentic Crm control architecture

Explicit planes separate decision, authority, execution and proof.

Nine observable states separate recommendation from commitment

Approve the exact field delta, resource version, validity window and recovery path

DECISION RULE

If evidence or quote version changes, invalidate the approval and recompute the decision.
